

Mission® Expert Urinalysis Reagent Strips

Step 1: Immerse strip into urine

Step 2: Remove excess urine

Step 3: Obtain results by analyzer or visual reading

Unique Designs

- Two New Strips Available
 - Uniquely constructed with laminated mesh overlay (U033-111)
 - Helps to avoid chemical run over and interaction between pads
 - Provides uniform color for easy reading
 - Secures reagent pads and eliminates false results
 - Simplified procedure eliminates extra step for removing excess urine
 - Uniquely designed without laminated mesh overlay for competitive pricing (U034-111)
 - Accuracy equivalent to strips with laminated mesh overlay
 - High quality performance
 - Competitively priced to meet local market requirements
- High Ascorbic Acid resistance
 - Prevents false-negative results for Glucose, Blood, Nitrite, and Bilirubin
 - Equivalent to the market leader for enhanced accuracy
- Analytical sensitivity better than or equivalent to market leaders
- High quality color chart ensures accurate visual reading

Flexible

- Results in 2 minutes
- Up to 11 combinations available for visual reading
- Up to 7 combinations available for analyzer reading

Multiple Packaging Options and Long Shelf Life

- Two canisters available
 - Canister with desiccant caps: 25, 50, 100, and 150 strips per canister
 - Canister with desiccant in the canister: 25, 50, and 100 strips per canister
- 2 year shelf life for closed canisters and 3 month shelf life for opened canisters
- Competitively priced
